

FIT KIT LEVEL I MONDAY FEBRUARY 7 - 9 AM - 5 PM

Fit Kit, the most widely accepted system for bike fit, increases sales and customer satisfaction by providing a quick and reliable method to establish a safe and developmental fit for your customers. Vendor-independent, Fit Kit puts you in control and provides a fact-driven basis for fits of all levels of sophistication.

- Earn Level I Fit Kit certification.
- Make good fit part of every sale
- Learn useful biomechanical terms and principles.
- Translate data into a proper developmental fit
- Perform basic on-bike fit verification.

Lead Instructor Chris Nurre is president of Fit Kit Systems.. Chris combines an extensive background in exercise physiology with two decades of bike shop ownership.

The Fit Kit System utilizes measuring devices and software that enable bicycle dealers, coaches, trainers, physical therapists, and sports medicine professionals to fit cyclists with a safe developmental starting position. Use Fit Kit to reduce injuries caused by improper fit and to maximize performance.

FIT KIT / FITMASTER LEVEL 2/3 TUES/WED FEBRUARY 8-9 - 8AM - 5PM

Build on Fit Kit's foundation through our advanced Fit Kit training including the Waterford Fitmaster and the Fit Kit Rotation Adjustment Device (RAD) system. This two-day seminar offers hands-on opportunities with in-depth case studies.

- Develop rider observation skills.
- Use the Fitmaster with Fit Kit to sell stock as well as custom bikes.
- Understand Bike-Body relationships.
- Recognize and resolve a wide range of fit problems.
- Address custom bike design problems.
- Learn how to use the RAD cleat alignment system.
- Make fit a valuable component of your store merchandising and operations.

The Level 2-3 seminar requires a level 1 certificate or instructor approval.

The Waterford Fitmaster lets you verify and adjust bicycle fits for virtually any rider. Easy to set up, easy to adjust and easy to document, the Fitmaster is invaluable for both stock bike and custom bike fits.
